

2001-2005 BIRD OBSERVATIONS ON THE WEST CHICAGO PRAIRIE

Periods are days 1-7, 8-15, 16-23, and 24-X for each month.

P = Permanent Resident

a = abundant, can't miss

M = Migrant

c = common, ususally seen/heard in habitat

S = Summer Resident

f = frequent, may be seen/heard in habitat

W = Winter Resident

o = occasional, seen only a few times during the season

I = Irregular resident

r = rare, not seen every year

X X = Observations in 2006

+ + = Often observed, 2001-2005

- - = Occasionally observed, 2001-2005
